ORANGE

We are the girls from the
No More Worries Company
Ready to show you the easy way
To make you smile is company policy
"Just relax" is what we say
Don't worry about your health
We'll take care of your wealth

Leave it all to the
No More Worries Company
Don't bother yourself

We know you struggle
With far too little pay
But let's be honest
You don't need it anyway
What you gonna do
There's only one thing that can help

Pass it on to the
No More Worries Company
Don't trouble yourself
Pass it on to the
No More Worries Company
Don't trouble yourself
No, don't trouble yourself

When you look for the universal remedy
To live life the easy way
"Think for yourself" is wasted energy
Listen up to what we say
Don't worry about your health
Don't care for your wealth

Take a chance with the
No More Worries Company
Don't trouble yourself

Sometimes you wonder
Why you always feel depressed
Maybe a pill
Could take the sorrows off your chest
What you gonna do
There's only one thing that can help

Pass it on to the

No More Worries Company

Don't trouble yourself
Pass it on to the
No More Worries Company
Don't trouble yourself
No, don't trouble yourself

Do you wanna know
The meaning of life at last
And you try to find out
If there's anyone you could ask
What you gonna do
There's only one thing that can help

Pass it on to the
No More Worries Company
Don't trouble yourself
Pass it on to the
No More Worries Company
Don't trouble yourself
Ask the girls from the
No More Worries Company
But for heaven's sake
Don't think for yourself

There is a time to walk ahead
And there's a time to stay behind
There is a time to play along
And there's a time to free your mind

When times were changing
All across the universe
You could hear music
On the dark side of the moon
It was the season of the witch
She came around to heal the blind

Once upon a time
When Mars and Jupiter aligned
They said the new age
Of Aquarius had begun
Love was in the air
And there was music everywhere
And all the people joining in
Were having fun

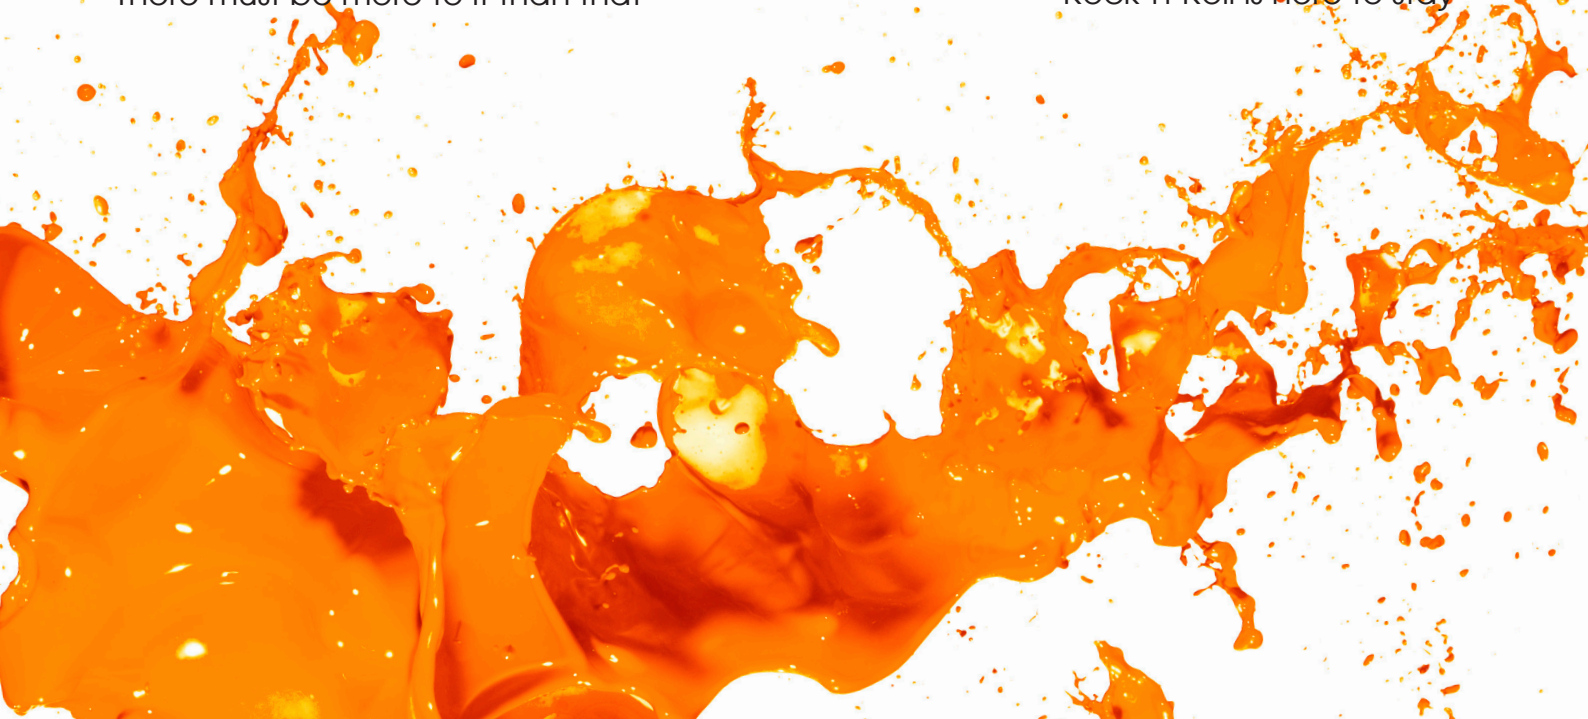

You paid your dues
You learnt your lesson
So you know the stage is set
You can't believe in what you see
Cause what you see ain't what you get
Maybe we're nothing more
Than footprints in the sand
And soon the flood may come
To wash it all away
And yet I cannot help but think
There must be more to it than that

Once Upon A Time

When Mars and Jupiter aligned
They said the new age
Of Aquarius had begun
Love was in the air
And there was music everywhere
And all the people joining in
Were having fun

For we've been told that young and old
Will learn from each other
To understand your fellow man
To care for your brother
For we've been told that young and old
Can teach one another
To understand your fellow man
To care for your brother

So when the future has no future
And the past has passed away
We're left with nothing to remember
Left with nothing but today
When I hear people say that Rock'n'Roll is dead
Who will be playing for the children of the King
Then I remember the old saying
Rock'n'Roll is here to stay

Did you know there were times in my life when I thought I was close to you
Growing up with a boy by my side as a partner in crime
What a time, and we both didn't know that one day we'd be saying goodbye
Nothing ever lasts forever, my oh my

I remember the times that we played in the neighbourhood close to you
And that promise you gave me that warm summer night in July
Time goes by, and they're saying that you have been growing up much more than I
Nothing ever lasts forever, my oh my

Tell me why does this make me feel so sad and lonely
When I never thought you could be the one and only
Goodbye past, is it true that the good things don't last

Now you tell me there's somebody else in your life that is close to you
And I desperately try to find something that I could reply
I could cry but there's one thing I have to keep telling myself to get by
Nothing ever lasts forever, my oh my

Tell me why does this make me feel so sad and lonely
When I never thought you could be the one and only
Goodbye past, is it true that the good things don't last

As the shadows grow longer my heartache gets stronger
And maybe it's time to move on
But it's hard to ignore what has happened before
And I cannot forget all the times I was

Close To You

Tell me why does this make me feel so sad and lonely
When I never thought you could be the
One and only
Goodbye past, is it true
That the good things don't last
Is it true that the good times
Have passed

(We tried and we tried)
Your teachers always seemed to disagree
(We tried to teach you how to be)
With your unusual life philosophy
(Someday you will see)
It's nice to play along
But in the end you've got to prove them wrong

(Why don't you fit in)
You tend to have your head up in the clouds
(Why don't you fit in with the crowd)
To get away from everybody's doubts
(Try to make us proud)
Keep dancing to your song
Soon everybody else will dance along

It's alright, it's alright, it's okay
If there's a will there is a way
It's alright, it's alright, it's okay
You will be just fine
It's okay, alright

IT'S ALRIGHT

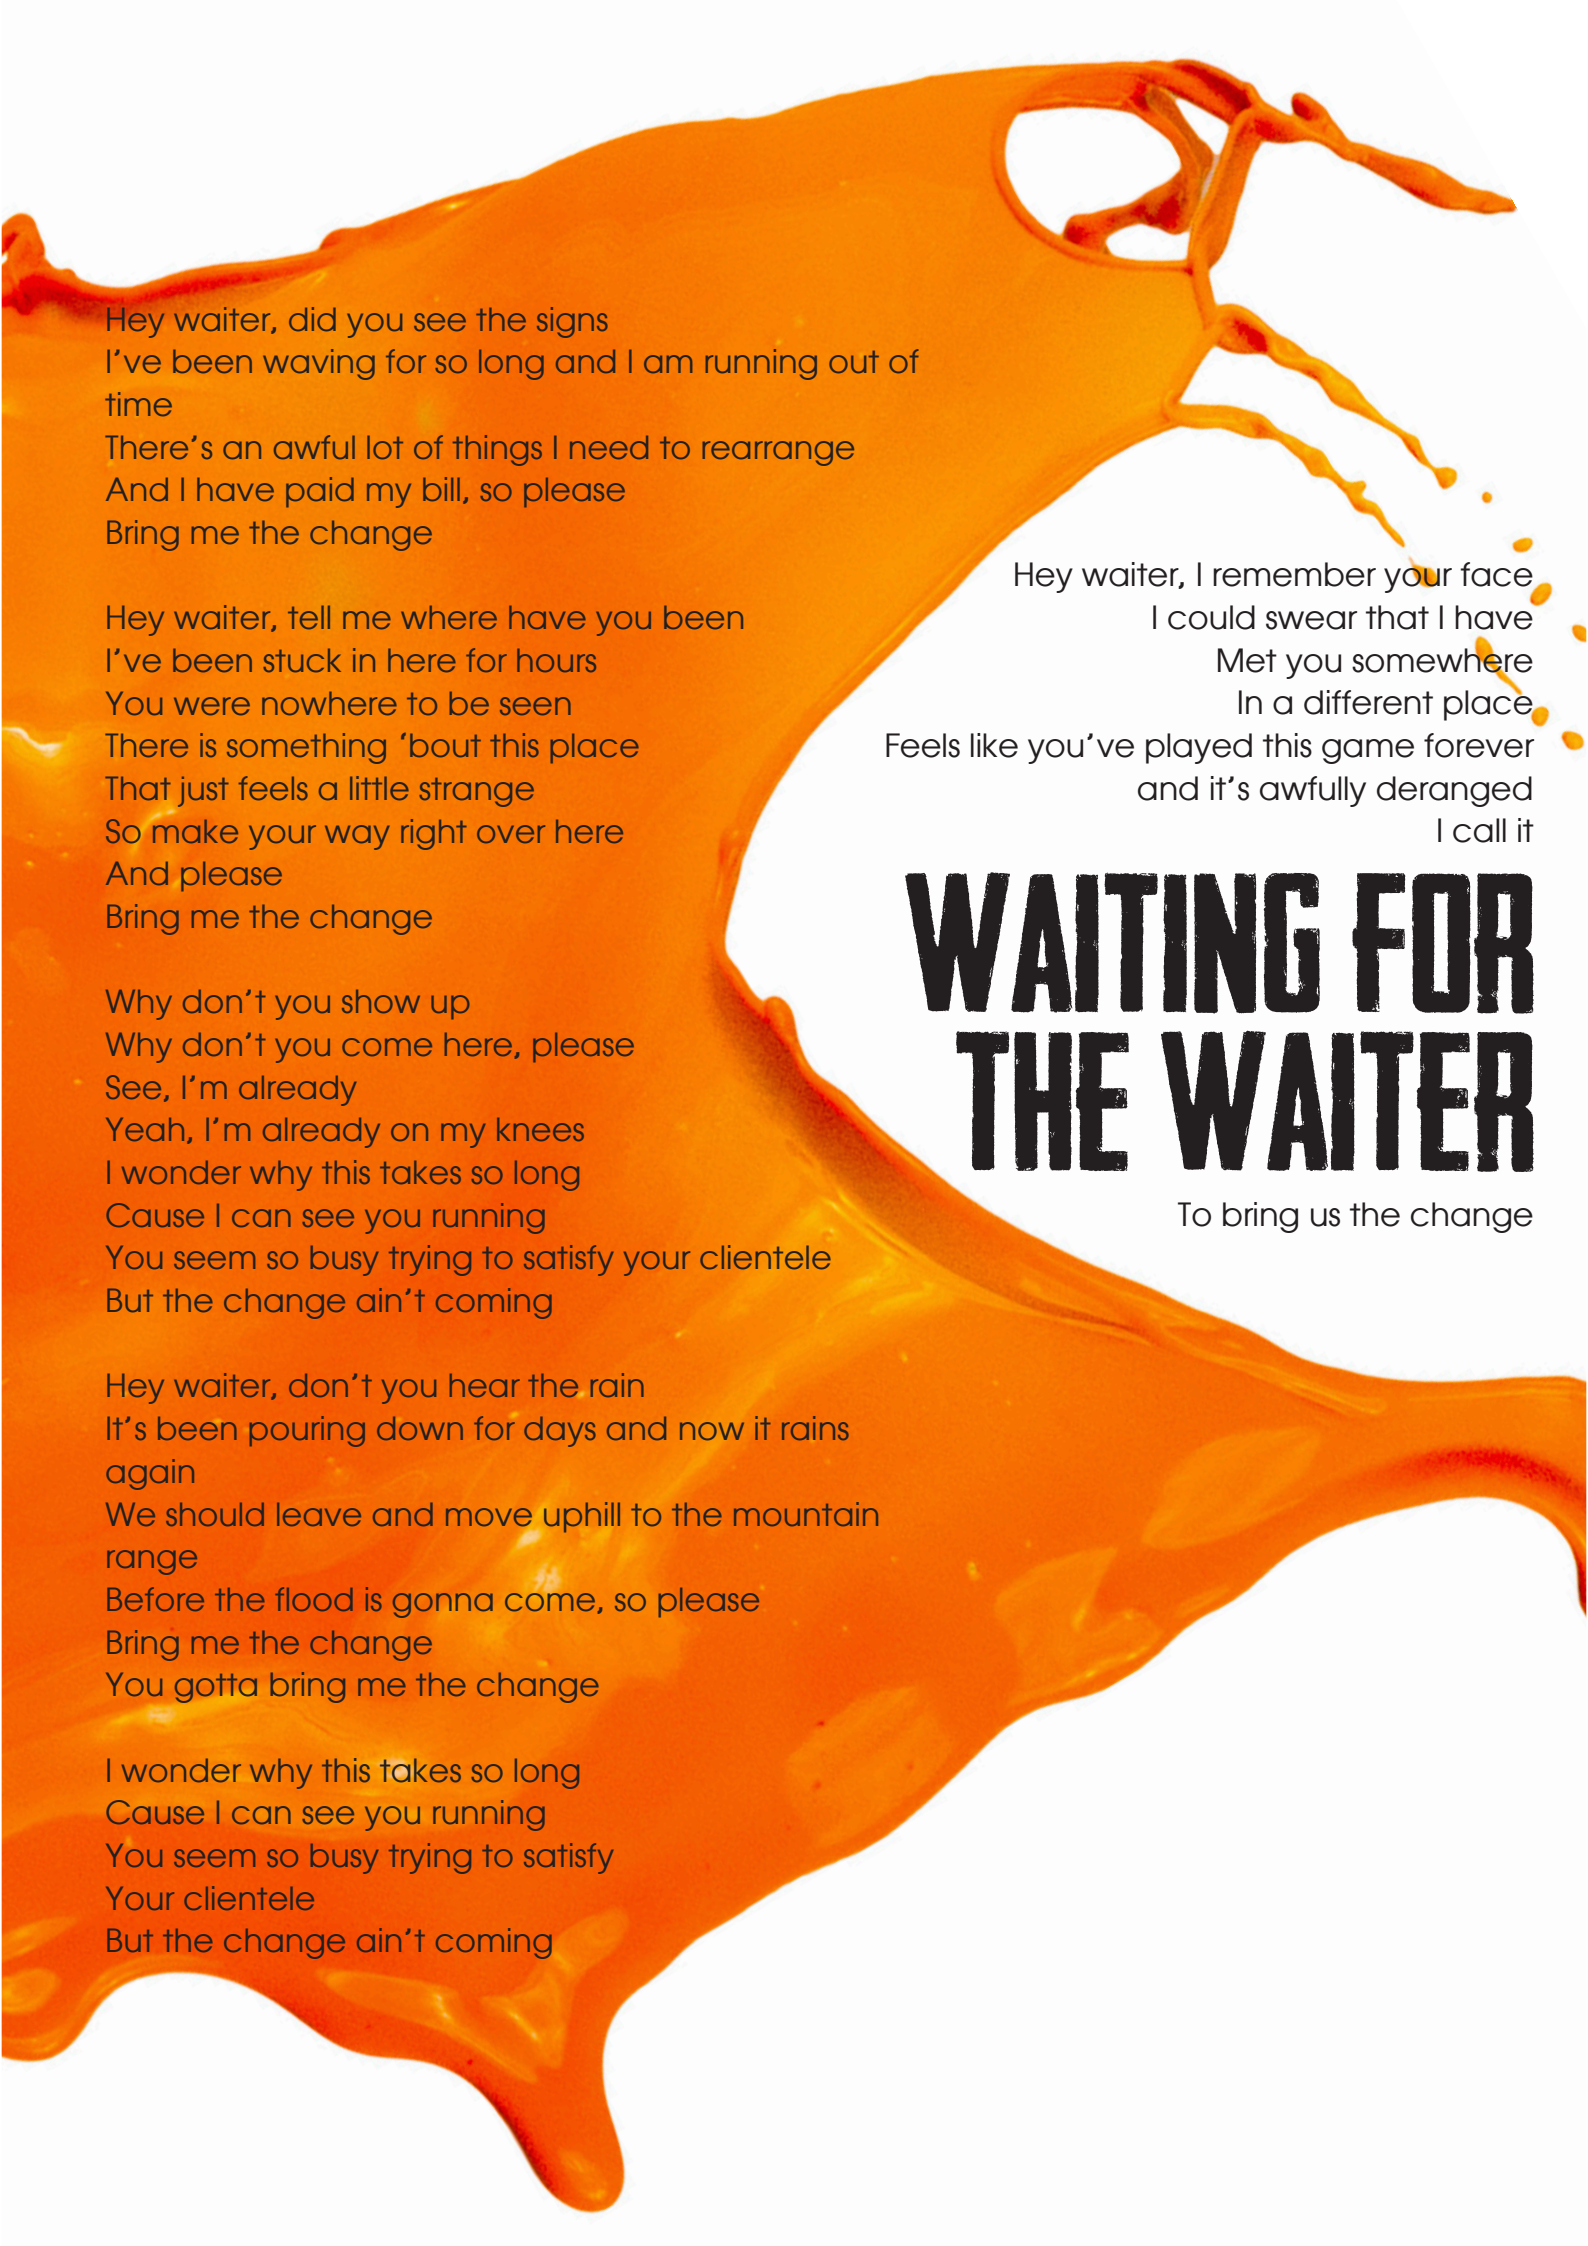

(What can you expect)
You seem to go for things you cannot get
(Your expectations won't be met)
Which often leads to heartache and regret
(Don't make us upset)
Just keep on keepin' on
And know one day the right things come along
(Never will the right things come along)
I know one day the right things come along

It's alright, it's alright, it's okay
If there's a will there is a way
It's alright, it's alright, it's okay
You will be just fine
It's okay, alright, it's alright

It's alright, it's alright, it's okay
If there's a will there is a way
It's alright, it's alright, it's okay
Nobody else should have a say

It's alright, it's alright, it's okay
If there's a will there is a way
It's alright, it's alright, it's okay
You will be just fine

It's okay, alright, it's alright
It's alright, it's alright
It's alright, it's alright

Hey waiter, did you see the signs
I've been waving for so long and I am running out of
time

There's an awful lot of things I need to rearrange
And I have paid my bill, so please
Bring me the change

Hey waiter, tell me where have you been
I've been stuck in here for hours
You were nowhere to be seen
There is something 'bout this place
That just feels a little strange
So make your way right over here
And please
Bring me the change

Why don't you show up
Why don't you come here, please
See, I'm already
Yeah, I'm already on my knees
I wonder why this takes so long
Cause I can see you running
You seem so busy trying to satisfy your clientele
But the change ain't coming

Hey waiter, don't you hear the rain
It's been pouring down for days and now it rains
again
We should leave and move uphill to the mountain
range
Before the flood is gonna come, so please
Bring me the change
You gotta bring me the change

I wonder why this takes so long
Cause I can see you running
You seem so busy trying to satisfy
Your clientele
But the change ain't coming

Hey waiter, I remember your face
I could swear that I have
Met you somewhere
In a different place
Feels like you've played this game forever
and it's awfully deranged
I call it

WAITING FOR THE WAITER

To bring us the change

I'm out of fashion, I'm out of style
I'm out of my mind, I'd say almost a mile
But I'm still into something good, I'm

IN IT FOR LOVE

Feel out of date
In these peculiar times
Feel out of touch
With the world and its crimes
But I'm still into something good
I'm in it for love

Had I not met you
I'd still mind what is "in" or "out"
This is no longer something
I really care about

I'm out of fashion
I'm so out of style
I'm out of my mind
I'd say almost a mile
But I'm still into something good
I'm in it for love

Had I not met you
I'd still mind what is "in" or "out"
This is no longer something
I really care about

I'm out of my head
I'm out of it all
I'm out of just about anything
I can recall
But I'm still into something good
I'm in it for love

Sometimes I throw a stone into the darkness
Just to see what sound it makes
I listen closely when it hits the surface
It says a little trust is all it takes

Sometimes I light a candle in the darkness
I watch the shadows dancing on the wall
And now it's up to my imagination
What it is I'm making of it all

No matter how many turns a river makes
It will always meet the sea
No matter how many times a promise breaks
You can always count on me
As time will go by you'll see
You can always

COUNT ON ME

Sometimes I look for guidance in the darkness
To find the hidden path that takes me home
But by the time I've come around full circle
I'm off again to make it on my own

No matter how many turns a river makes
It will always meet the sea
No matter how many times a promise breaks
You can always count on me
As time will go by you'll see
You can always count on me
The great escape has only just begun
But darling, I hope you'll see
You can always count on me

Sometimes I like the solitude in darkness
The time before the waking of the sun
But when I find you walking there beside me
I know the breaking of the dawn
Will have begun

No matter how many turns a river makes
It will always meet the sea
No matter how many times a promise breaks
You can always count on me
As time will go by you'll see
You can always count on me

His pretty blues eyes
Make her heart melt like ice
She is keen
And looking her best

Sure of success
She is spinning her dress
Yet it seems
He's still unimpressed

Somebody else caught his attention
She's feeling sick with apprehension
How can she go on like this
She would die for a kiss

She watches them dance
Getting lost in romance
What a pain
The love in his eyes

She can't understand
Why he's holding her hand
What a shame
And how very unwise

What started off as joy and laughter
May well turn into a disaster
She won't let it go on like this
She would kill for a kiss

Oh, sweet Lorraine
A pretty nice girl who follows her destiny
She's not to blame
Cause love is such a tricky game

She's ready to play
In the dirtiest way
As the moon
Shines bright over head

With no one in sight
A nice dress lily-white
All too soon
Turns into red

And as the night is growing older
She's got him crying on her shoulder
He needs a distraction from this
So she gives him a kiss

Oh,

Sweet Lorraine

A pretty nice girl who follows her destiny
She's not to blame
Cause love is such a tricky game

You hear the children's choir singing
As the wedding bells are ringing
Her heart, it is bursting with bliss
Now it's sealed with a kiss

Oh, sweet Lorraine
A pretty nice girl who follows her destiny
She's not to blame
Cause love is such a pity
Oh, sweet Lorraine

A pretty nice girl with a touch of insanity
She's not to blame
Cause love is such a pity
Love is such a tricky
Love is such a deadly game

I think I got it but I haven't got a clue
Still don't know what it's all about
(We can't find out)
If life has meaning it's a meaning
That's too mean to figure out
There's no doubt

One day I'm everybody's darling
The other day I'm just another fool
And I just might not get the answers
From playing by the rules, not cool

That's life, that's what you get
You better not bet that it's always
Coming up roses

Life, give it a chance
Get up and dance and romance
Before the book closes

If there's a better way
To get us through the day
I wouldn't mind if you could tell
(You might as well)

If life is wonderful I wonder
If it's just a tragic spell that makes it hell

One day I'm everybody's darling
The other day I'm just another fool
And I just might not get the answers
From playing by the rules, not cool

That's life, that's what you get
You better not bet that it's always
Coming up roses

Life, give it a chance
Get up and dance and romance
Get up and give it a chance

You got a life to live, got a heart to give
Yeah, Yeah
You got a right to live, got a lot to give
Yeah, Yeah

But since I love you
And I know you love me too
There's little reason to complain
(You feel the same)
Now life has meaning
And that meaning feels
Like shelter in the rain and you're to blame

Now everybody's everybody's darling
And nobody is anybody's fool
But boy, you also won't find any answers
By breaking every rule, not cool

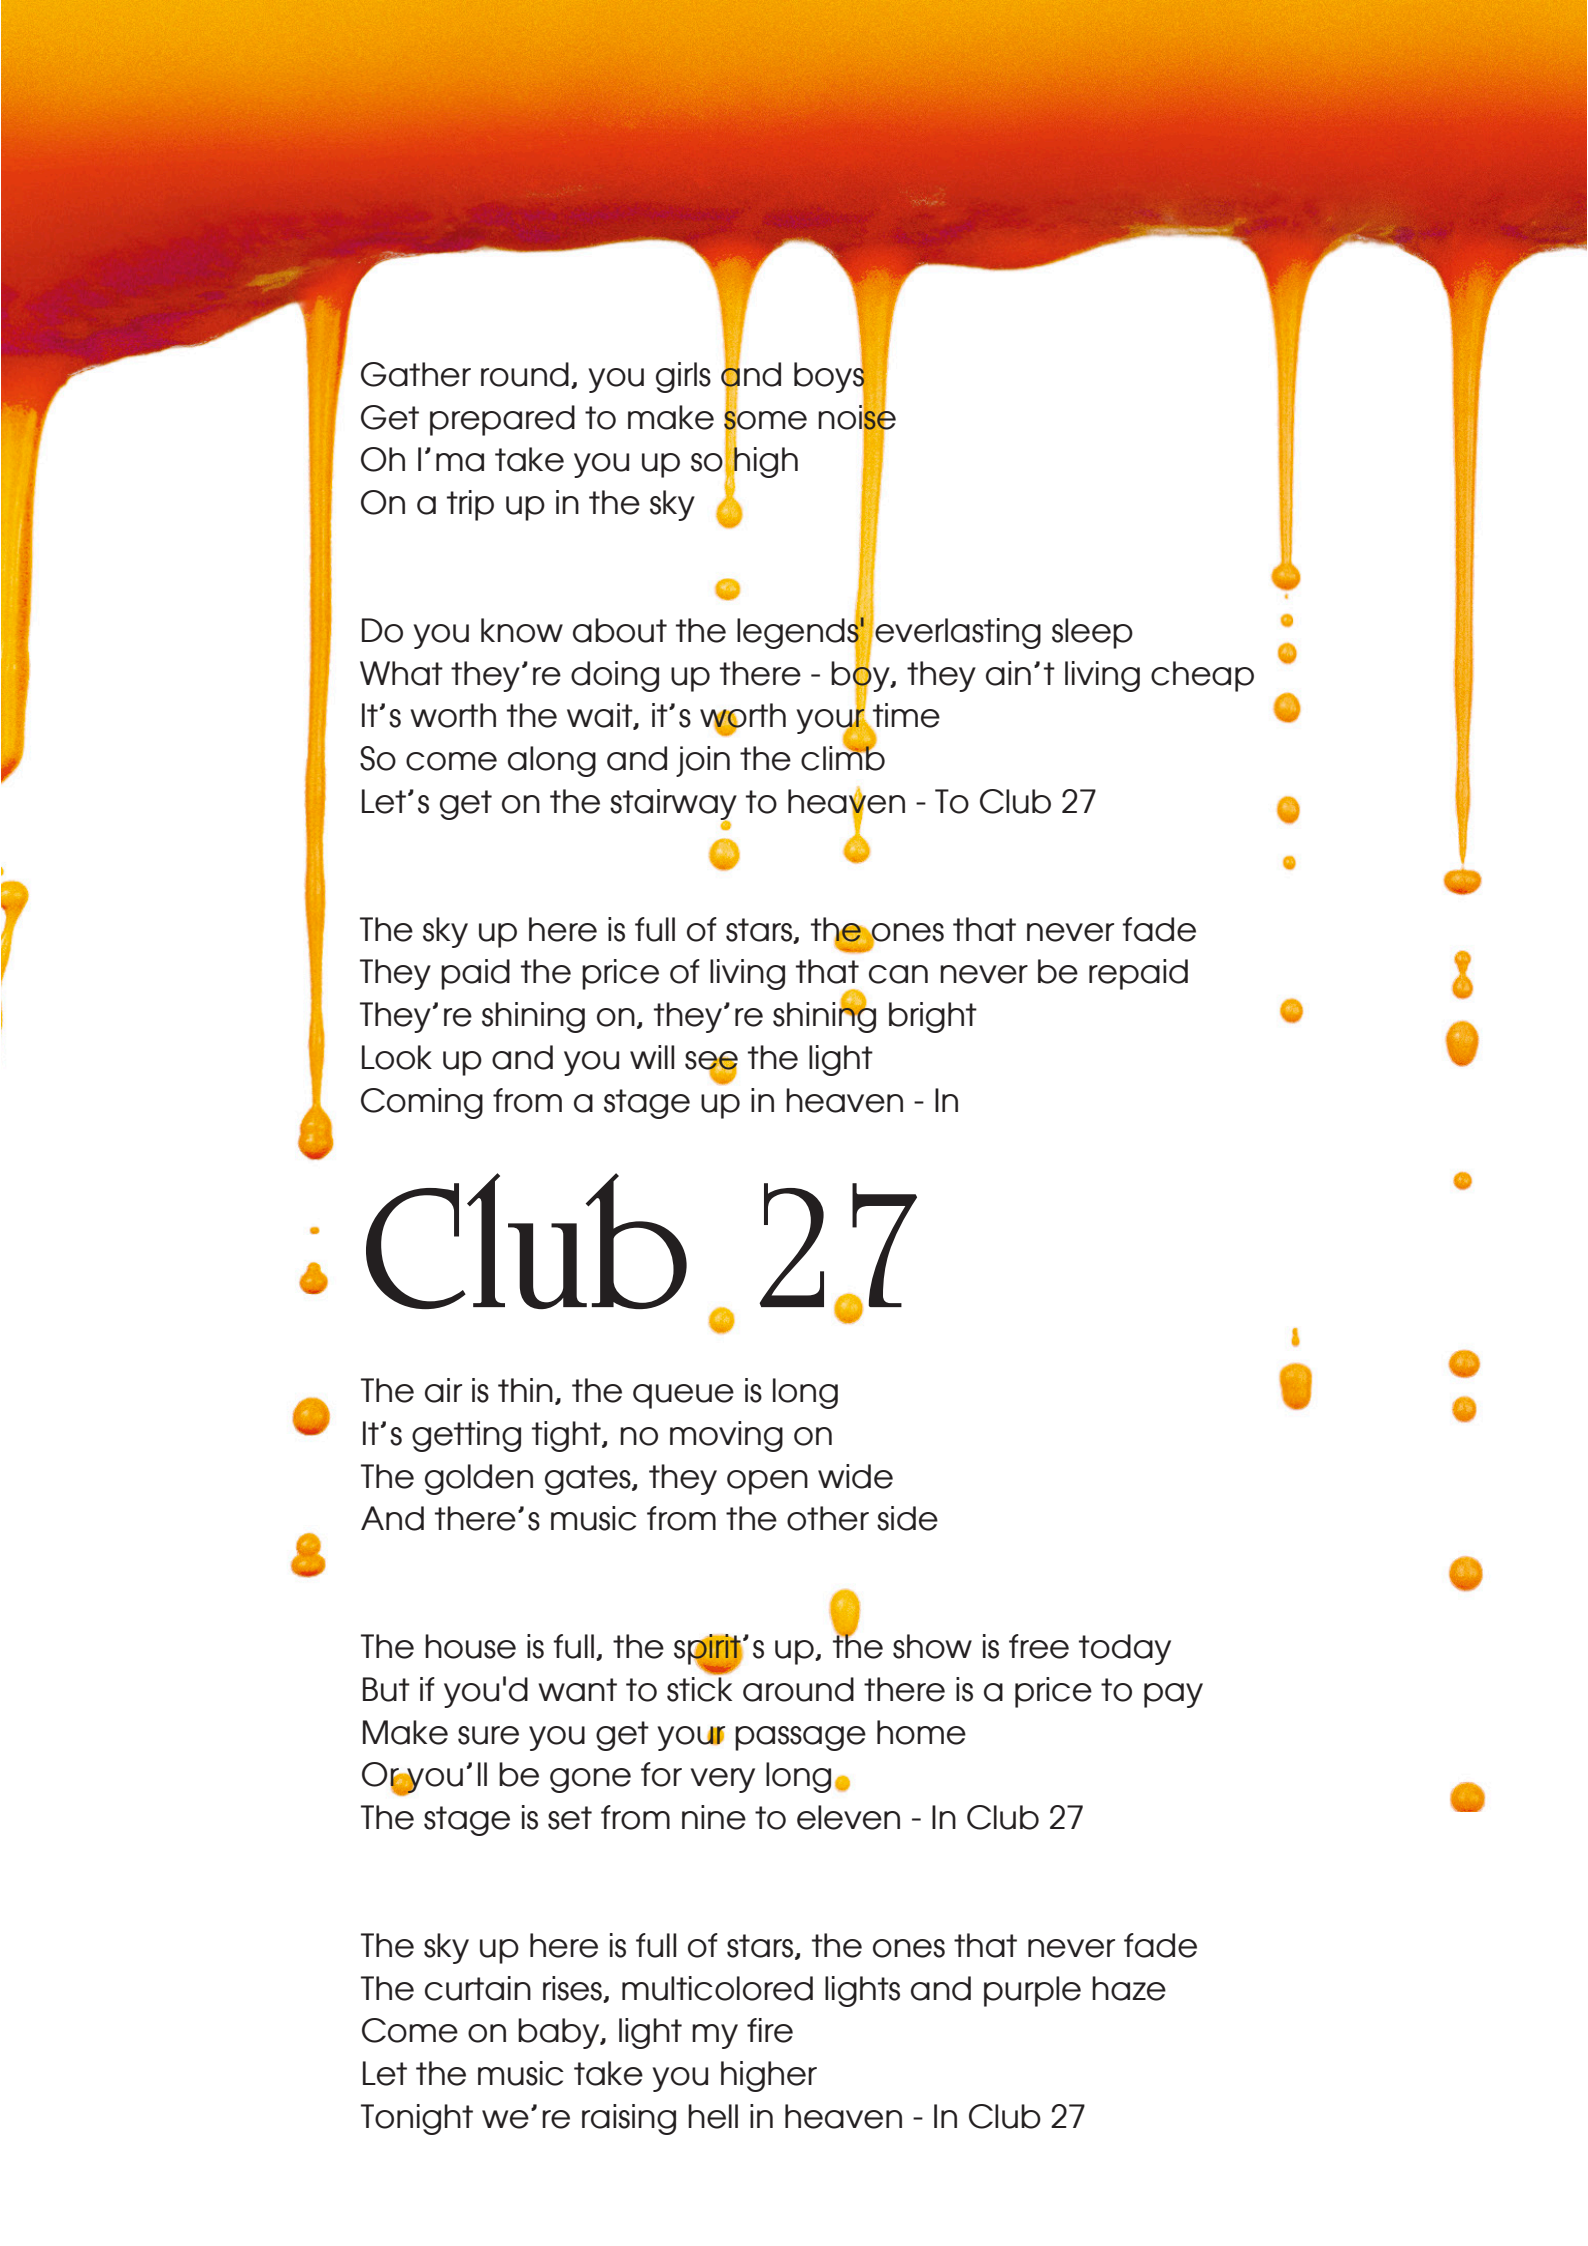

That's life, nothing is set
You better not bet that it's always
Sugar and honey

Life is what it is
You better not miss what it takes
To make your life sunny

That's Life

That's what you get
You better not bet that it's always
Coming up roses

Life, give it a chance
Get up and dance and romance
Before the book closes

Gather round, you girls and boys
Get prepared to make some noise
Oh I'ma take you up so high
On a trip up in the sky

Do you know about the legends' everlasting sleep
What they're doing up there - boy, they ain't living cheap
It's worth the wait, it's worth your time
So come along and join the climb
Let's get on the stairway to heaven - To Club 27

The sky up here is full of stars, the ones that never fade
They paid the price of living that can never be repaid
They're shining on, they're shining bright
Look up and you will see the light
Coming from a stage up in heaven - In

Club 27

The air is thin, the queue is long
It's getting tight, no moving on
The golden gates, they open wide
And there's music from the other side

The house is full, the spirit's up, the show is free today
But if you'd want to stick around there is a price to pay
Make sure you get your passage home
Or you'll be gone for very long
The stage is set from nine to eleven - In Club 27

The sky up here is full of stars, the ones that never fade
The curtain rises, multicolored lights and purple haze
Come on baby, light my fire
Let the music take you higher
Tonight we're raising hell in heaven - In Club 27

You took your time
To speak your mind
Took every chance to disagree
Talked late night talks
Walked midnight walks
To find out what you wanna be

We need the stubborn little child
That keeps the naked emperors
From running wild
So we might start to talk about
What we don't dare to see
And maybe find the child
In you and me

The same old lies
Just compromise
No angry voice amongst the crowd
A world of people keeping quiet as they're told
You were the one to speak out loud

You took your time
To speak your mind
Until the truth was plain to see
We're run by maniacs by maniac means
And only love will set us free

I wonder how the world would be
If everyone could see what you could see
Give me a sign
You're

I wonder how the world would be
If everyone could see what you could see
Never in line
Pearls before swine
After all this time
You're still a friend of mine

Still A Friend of Mine

No cash in hand
No promised land
Could ever put your mind at ease
When you made fun of all that stardom and fame
They said that you were hard to please

I wonder how the world would be
If everyone could see what you could see
Never in line
You're still a friend of mine
